

# Hotel Food Printer: Every Plate to an Unforgettable Experience

Handing your guests a cup or dessert that carries a crisp logo, a portrait or a tailored message. For hotels aiming to stand out in hospitality and increase guest engagement, this is not just flair but a practical service that boosts brand recall. The [Hotel Food Printer](#) fits into back-of-house operations smoothly, letting staff print on coffee foam, dessert creams, and more with minimal training. With simple controls and edible inks, the Hotel Food Printer raises guest satisfaction through fast, personalized service.

The FC1 Full Color Coffee Printer is a compact, reliable Hotel Food Printer designed for businesses that want consistent, full-color edible prints. Available from EVEBOT STORE, it retails for \$1,699.00 USD and is currently offered at \$1,359.00 USD. Available in black or white with model code EB-FC1, it weighs 14kg and measures 34 x 27 x 41 cm. Power supply is AC 100-240V and it prints at approximately 40 seconds per print with up to 600 DPI resolution. This model uses edible ink compatible with coffee, latte, beer foam and desserts.

### **Wedding drink customization**

[Wedding drink customization](#) opens possibilities for tailored beverage experiences at ceremonies and receptions. From monograms to photos, offering Wedding drink customization as part of beverage packages can lift perceived value and create shareable moments. The FC1 supports detailed artwork and logos, suitable for both intimate receptions and larger banquets. Implementing Wedding drink customization adds an upsell without overhauling existing beverage workflows.

## Use Cases and Setup

- Corporate meetings — print logos on coffee for clients; consider a Hotel Food Printer for consistent branding.
- Cafés within hotels — offer guests selfie prints on lattes.
- Banquets and weddings — add Wedding drink customization to package menus.
- Dessert bars — print messages and designs on cream-topped treats.

## Specifications and Maintenance

- Model: FC1 (EB-FC1)
- Dimensions: 34 x 27 x 41 cm; Weight: 14kg
- Print resolution: up to 600 DPI; Speed: ~40 seconds/print
- Ink: edible, vegan, gluten-free
- Colors: Black, White

Daily wipe of the ink cartridge is recommended to prevent drying and color shifts; regular cleaning keeps print quality consistent.

## Benefits

Adopting a Hotel Food Printer enhances guest experience and opens new revenue streams. Wedding drink customization increases social sharing. It strengthens event offerings and supports brand visibility in subtle, tasteful ways. The technology is approachable for small teams and scales well for larger operations.

Adding a Hotel Food Printer can increase ancillary sales by offering premium, personalized beverages for events and meetings. The print speed enables efficient banquet service and branding on cups reinforces corporate identity during conferences. For wedding packages and banquet menus, the device lets kitchens offer new add-ons with minimal labor.

Many hoteliers use a Hotel Food Printer to personalize morning service, corporate breakfasts, and guest events. Operational advantages include a touchscreen that generates a QR code for

instant smartphone pairing, no app download required, and a user-friendly interface which makes staff training quick. The ink is food-grade, vegan and gluten-free, ensuring safety for consumers.

## **Reviews and Trust**

Customers rate the Hotel Food Printer highly for ease of use and visual impact. Common feedback highlights consistent single-color prints and occasional need for cartridge maintenance to avoid drying.

## **Why Choose the FC1 Today**

For hotels and event planners seeking a creative yet practical service, the FC1 delivers consistent quality and clear ROI. EVEBOT STORE offers demos and bulk orders — contact the team to learn more.

## **FAQ**

Q: How quickly can staff learn to operate it?

A: Most users report a short learning curve thanks to the touchscreen and QR pairing; basic operation can be grasped in under an hour.

Q: What surfaces can be printed on?

A: The unit is compatible with coffee foam, lattes, beer foam and many dessert surfaces with adequate foam.

Q: Is the ink safe for guests with dietary restrictions?

A: The ink is food-grade and labeled vegan and gluten-free, but always review guest allergies before service.
